

Malcolm Gladwell

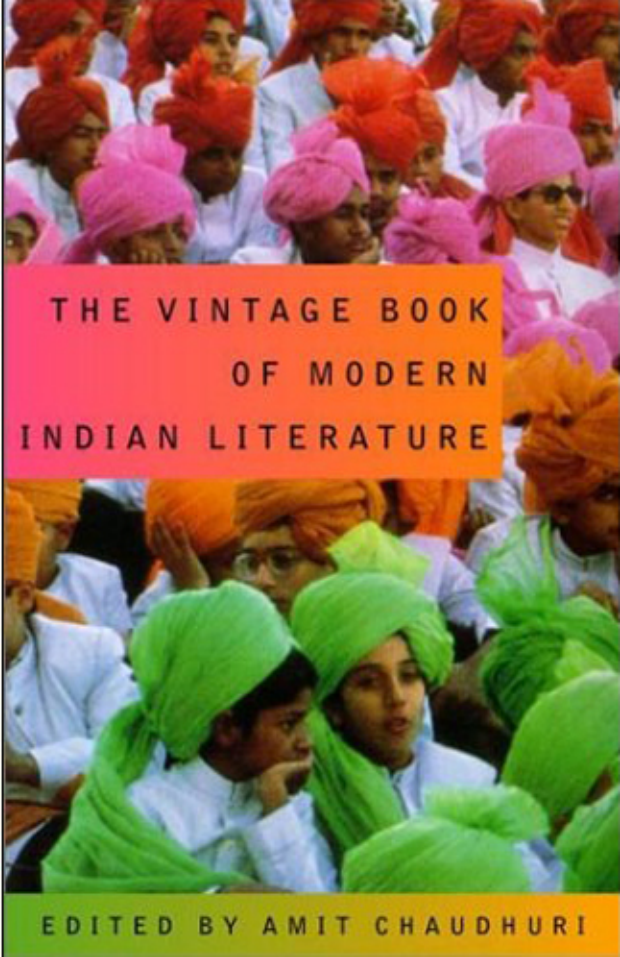

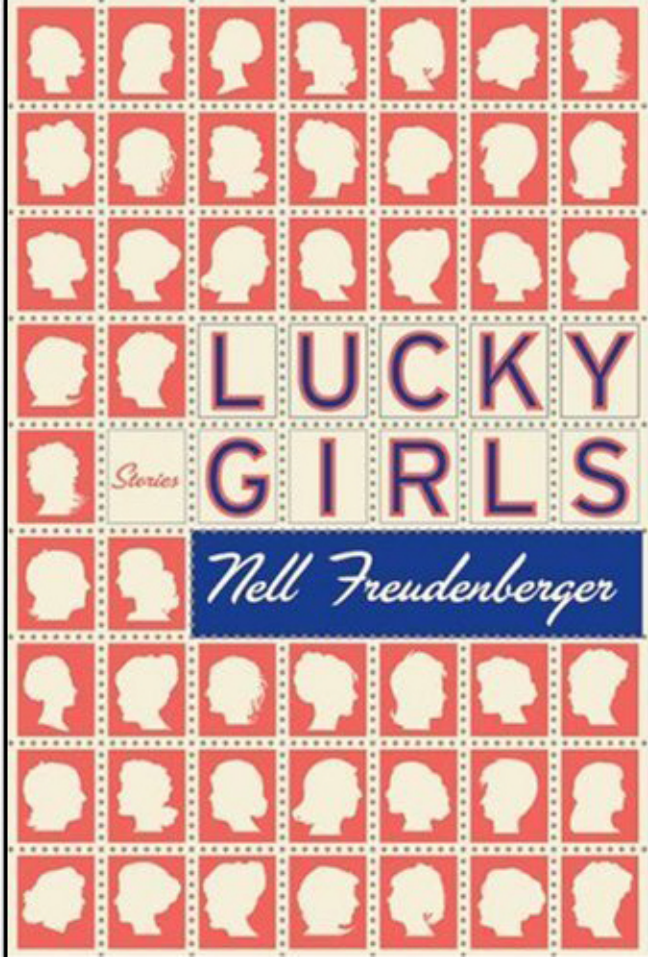

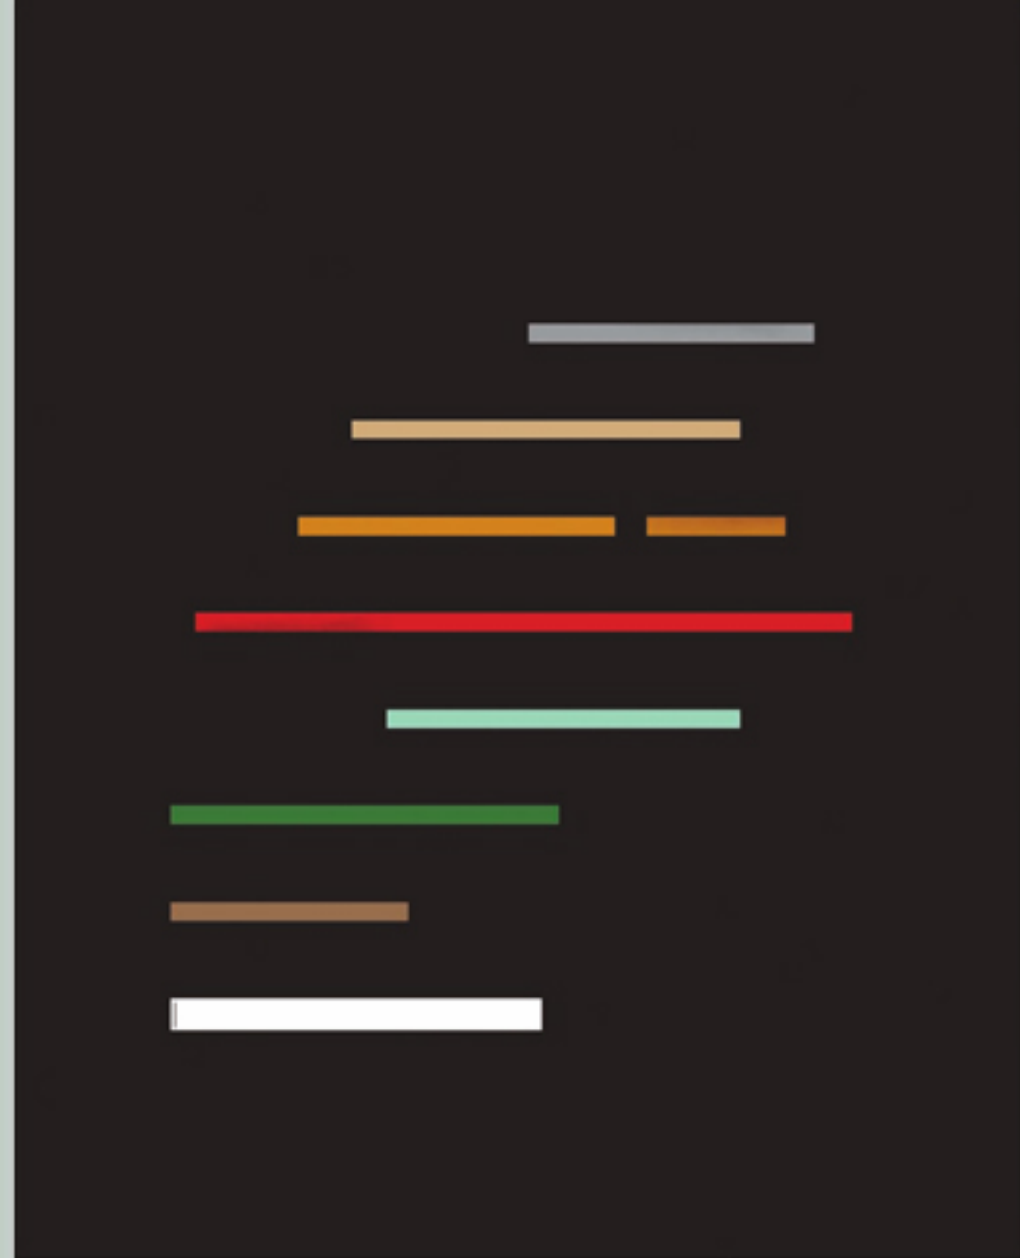

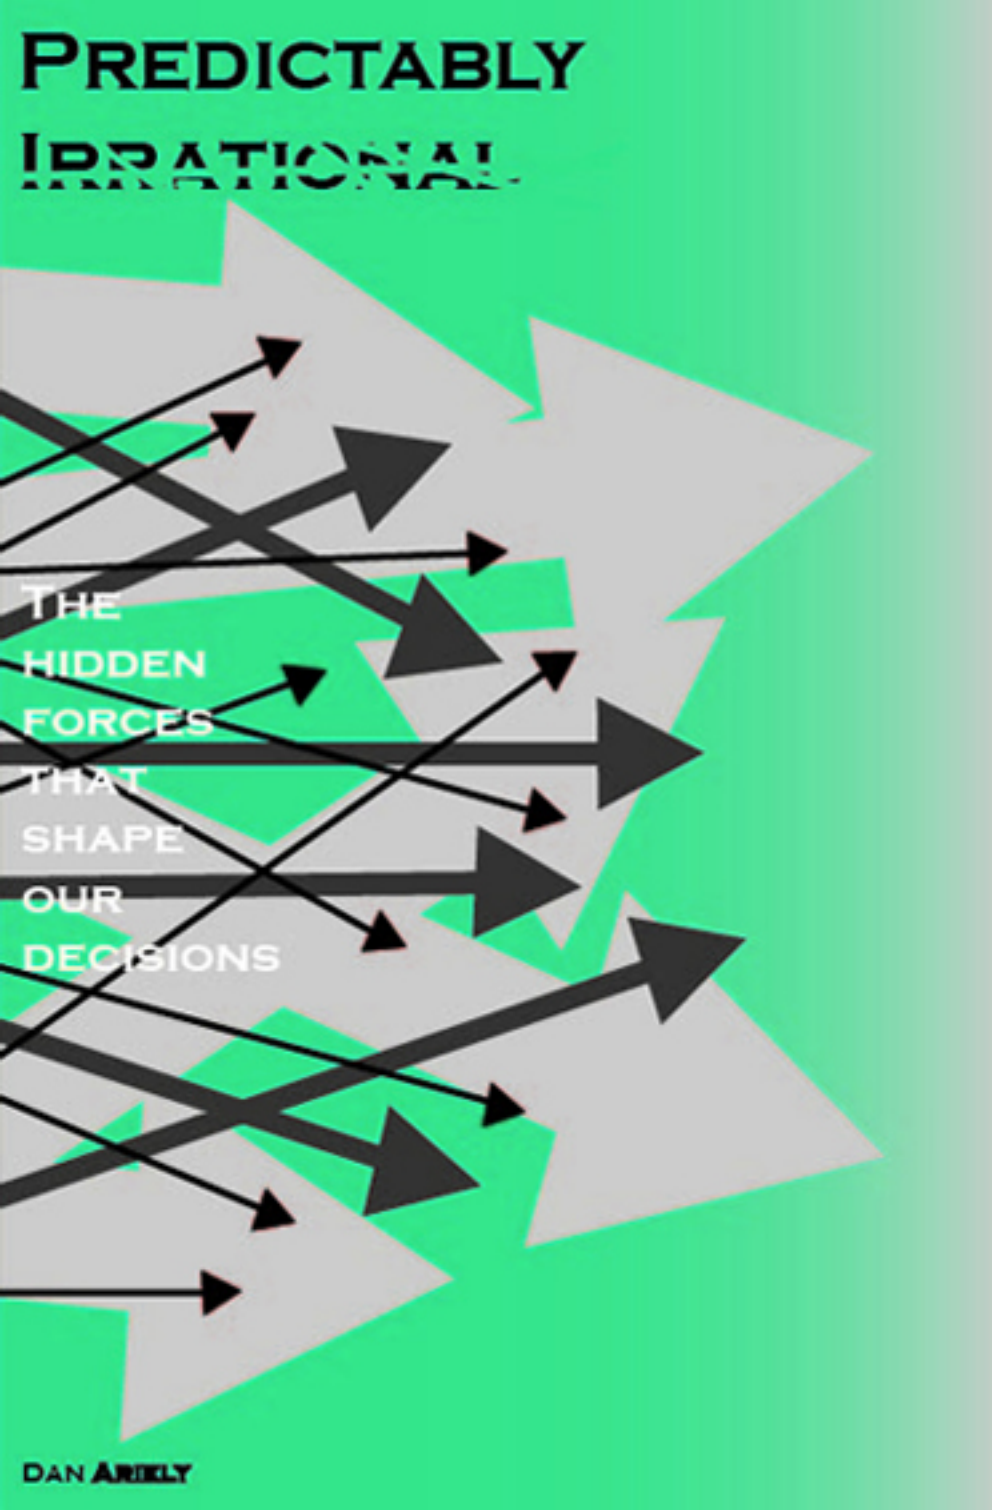

The  
**Tipping Point**

In recent years, William Connolly has been one of the most perceptive and creative political theorists writing about pluralism over the past fifteen years. In this new book he draws together the various different complex strands he has been weaving into a compact, intense, yet accessible assemblage of arguments, concepts, analogies, and metaphors defending a new vision of democratic pluralism. What is distinctive about Connolly's approach could be summarized thus: his argument is both political and metaphysical.

A NOVEL

I am an Iranian writer writing bitter stories populated with ghosts and dead narrators with who at the threshold understood that the real world and sorrow, and that I did not have the whom I a body-and-romantic-vear-that I do not possess. I have reproduced from the of the woman who although I have seen certain real women. Her fantasy written of her long hair as black. At any rate, I hate myself for sending characters that I like, that I have word by word, toward darkness or bloody death at the end of my stories in. For these reasons, and I will probably discover later, I, with all my best want to write a love story. who has never seen the man A story with an ending that is a gateway to light, though it does not not make my reader afraid of falling in love. be-labeled-as-political. My dilemma is that I want to publish my love story in my homeland . . .
