

# Course Syllabus

## Class Information

Class: CEE 587 Global Trade, Transportation, and Logistics Management  
Days: Monday, Wednesday  
Time: 11:30 a.m. – 12:50 p.m.  
Location: MORE 234  
Website: <http://courses.washington.edu/cee587>

Description: Overviews trade, transportation, and logistics activities and highlights the relationship between infrastructure and trade. Students gain an understanding of the physical flows in supply chains, and the economic drivers of supply chain choices. Students learn methods to analyze and improve logistics and transportation systems, including applications of policy, technology, and infrastructure.

Instructor: Anne Goodchild  
Office: 121E More Hall  
Office hours: MW, 10:30 - 11:30 am  
Phone: 206.543.3747  
e-mail: [annegood@uw.edu](mailto:annegood@uw.edu)

Textbook: There is no single text for this course. All required reading material will be available on the course website, and is primarily drawn from the following texts:

“Business Logistics/Supply Chain Management” by Ronald Ballou  
“Logistics Systems Analysis” by Carlos Daganzo  
“Intermodal Freight Transportation” by Gerhardt Muller  
“Applications of Queueing Theory” by Gordon Newell  
“Supply Chain Management” by Copra and Mendl
