

# U of W Restoration Ecology Network RFP Form

**Question 1.** Client Name: Pat Schwartzkopf and Bonnie Miller

**Question 2.** Organization: Yesler Creek Headwaters Reforestation

**Question 3.** E-mail address: Pat– [patschwap@gmail.com](mailto:patschwap@gmail.com)

Bonnie– [bmiller@serv.net](mailto:bmiller@serv.net)

**Question 4.** Phone number: Pat – 206-226-7336

Bonnie – 217-883-1776

**Question 5.** FAX:

**Question 6.** Mailing Address: 6213 37<sup>th</sup> Ave NE

Seattle, WA 98115

**Question 7.** Name of Project: Yesler Creek Headwaters Reforestation

**Question 8.** Site Location (city, county, watershed, cross-streets, section, township, range):

**Seattle, King County, located south of Metropolitan Market (40<sup>th</sup> Ave NE and NE 55<sup>th</sup> Street).**

**Question 9.** Site Description: (Size of project area, topography, watershed positioning, level of disturbance, existing land use):

**This is creek ravine restoration at its finest. You may encounter steep slopes, muddy soils, lots of invasive species, and one or two shopping carts.**

**Question 10.** Project Goals & Objectives (What is to be accomplished and why):

- **Continue building upon the success of the previous capstone classes.**
- **Restore a cross section of the ravine and help keep maintained previous work.**
- **Habitat assessment of the ravine. How much woody debris is in the ravine? How much standing dead wood is there? What life does it support (birds, mammals, rodents, etc.)? Is there a possibility for native amphibian release? What is the water quality like, does it change per season? Is it toxic to animals?**
- **Develop maintenance guide for the restoration work that has currently been done in the ravine. What will be the best approach to take with the restoration and maintenance of this ravine?**
- **Create a sense of community awareness, create outreach to children and adults living nearby, and encourage the neighbors to help participate.**
- **If possible, incorporate art into this project.**
- **Bring a creative, “out of the box” thinking, and open minded approach to this project.**

**Question 11.** Deliverables (What are the deliverables you expect from the UW-REN student Group):

- **Maintenance and Monitoring Plan**
- **Plant list, numbers, and size of project**
- **Website**

**Question 12.** Reference Material (what reference information can be provided to assist in the research and development of the project goals/ baseline data, reports, site reconnaissance information):

- **Access to Seattle Park records and previous Capstone projects at Yesler Creek**
- **Green Seattle Partnership**

**Question 13.** Volunteer Resources (If volunteers are going to assist in aspects of the project does your organization have access to a volunteer resource pool):

- **Bonnie and Pat can tap into a number of volunteers.**

**Question 14.** Other Relevant Information:

- A large toolbox with tools good for < 30 volunteers
- Convenient for bus riders and bike riders
