## Scoring equation:

Final score will be awarded based on total points. It is intended to make the contest as realistic and as fair as possible.

- 15 points are awarded to team that programs the robot to push a button to open the gate.
- 60 points are awarded to team that either fight off the unfriendly robot or stop the robotic wheelchair from moving forward.
- 15 points for each ball pick up (red balls)
- 15 point for each ball land in the basket
- 10 points each are awarded to team that go over a 3 " ramp, $1 / 4$ " steps or sand pit

## RANKING:

1. The team with the best score win the competition and to be awarded the top prize of $\$ 100$ in cash!!!!!!!!!!!.
2. The WINNER's score will also get the maximum $20 \%$ towards their grade.
3. The scores of all other teams will be calculated on the basis of the winner's score.

There is a $\mathbf{1 0}$ minutes time limit on the course crossing!!!!
