

ESRM 362

Lab Assignment 6

Due: 11/9/09

- 1) What do you think are the most significant benefits to restoration of using volunteer labor? What are some of the drawbacks?
- 2) What do you think are the most significant benefits to volunteers from doing restoration?
- 3) What do you think were the most successful aspects of this week's volunteer project with Earthcorps?
- 4) What do you think could have gone better with this week's project? What could be done to make future projects even more successful?

Respond to all questions in a total of one page or less. Thanks for volunteering!!!
