

ESS 203 *Glaciers and Global Change* Winter 2020
Friday January 17

For Wednesday January 22: (Monday is a holiday)

- Please read Chapter 4 (pages 45-64) in text *Frozen Earth*. This chapter describes the *evidence* that convinced scientists that there had been ice ages. (In Lab in the next few weeks, you will be identifying geological features that were formed by glaciers.)
- In a sentence, explain what you think we mean by *scientific evidence*.
- In a page or less, please describe three key bits of *evidence* that turned the tide of skepticism about the ice ages, and why they were effective at convincing skeptical scientists.
