

**ESS 203 *Glaciers and Global Change* Winter 2020**  
**Friday January 24**

**Writing assignment due Monday Jan 27**

Please read -

“How do climate models work?” by Robert McSweeney and Zeke Hausfather.

Here is the article:

<https://www.carbonbrief.org/qa-how-do-climate-models-work>

In one page or less...

- describe what a climate model is
- describe the difference between a GCM, an ESM, and an IAM
- write one new thing you learned from reading the article, and one thing you didn't understand or would like to know more about climate models.
