

ESS 203 *Glaciers and Global Change* Winter 2020
Wednesday January 29

Writing assignment due Friday January 31

Now is a good time to decide *which* Quiz question(s) *you* will try first, and share with peers informally or at discussion sessions ...

- Write out your current best answer to one Quiz study question that you would take to a study session.
- I may read your answer, but I won't assign a grade. Just like the other writing homework assignments, it's a C/NC contribution to your class participation.
- It's for your own good. Trust me. ☺
