

**ESS 203 Glaciers and Global Change Winter 2020**  
**Monday March 9**

**Assignment due Wednesday March 11**

(a) Please read the *Annals of Glaciology* article by Tomasson (1996) *The jökulhlaup from Katla in 1918*. The article is posted under the READING tab on the class web site.

(b) In about a half page, answer our standard 3 questions.

- 1) What question is Tomasson asking?
- 1) What's his answer to the Question?
- 3) What points in the paper are still unclear to you?

Please turn in your writing on Canvas.

Optional question -

In what language is *jökulhlaup*, and how do the native-speakers pronounce it? ☺
