

EARTH AND SPACE SCIENCES 203 GLACIERS AND GLOBAL CHANGE DAY-1 QUESTIONNAIRE

I would like you to fill out this questionnaire because I want to get an idea of your background, where you are going, and your expectations in this course. Thanks!

Ed Waddington

[illegible]

Your Name: _____ Do you use a nickname in class? _____

1. What stage are you at in your studies?

1	2	3	4			
Freshman	Sophomore	Junior	Senior	Transfer	Post-Grad	Access Program
2. Where are you from?
3. What is your major subject or interest at UW?
4. What is one of your interests outside the UW?
5. What do you think you will do when you graduate?
6. There are no math or science courses as prerequisites for ESS 203. However, I would like to know about your background. What science courses have you taken, if any?
7. What math courses have you taken, if any?

(continued on next page)

8. Have you used the metric system before (meters, kilograms, temperatures in degrees Celsius)?

9. Have you visited or walked on a glacier? If you have, tell me about it, e.g. where, when, anything special that you noticed about the glacier?

10. I plan to use a UW “mailman” class list to send you class information and other communications by email. The mailman list will contact you through your “@u” email account.

• **Do you check your “@uw” email regularly?** Yes _____ No _____

• **If not, is your “@uw” email being forwarded to an email account that you *do* read regularly?** Yes _____ No _____

11. You will be working in groups on some projects in this class. I would like to post the class email addresses on a class web site so that you can communicate easily with one another. The list will be secure to the degree that only class members will be able to access it.

• **Do I have your permission to include your email address on a secure class web page?**
Yes _____ No _____

12

. What do you want to get from this course?

13. How did you hear about this course?
