

Topic/Title:

GIS Analysis & Mapping of Conservation Priorities for a Watershed Open Space Strategy (WOSS) in the Puyallup-White Watershed Resource Inventory Area (WRIA 10) or the Snohomish Watershed Resource Inventory Area (WRIA 07) (two separate but related projects)

Organization:

UW Green Futures Research & Design Lab (GFL)

Project Website: <http://rossgfl.wordpress.com/>

Contact Name:

Jeffrey W. Raker

Project Description:

Assemble, analyze, and thematically map data for one of seven Watershed Open Space Strategies (WOSS) to be integrated into the Regional Open Space Strategy (ROSS) for Central Puget Sound. The ROSS project will stitch together the many activities underway to conserve and enhance open space and contribute to the ecological, economic, social, recreational and aesthetic vitality of the Central Puget Sound region.
