

HW 2: due 11/04

Find 2 articles from scholarly journals (not books, news magazines, nor web sites other than electronic journals) available through the UW library system that describe the efforts and/or results of manufacturing or service companies to implement “Lean Manufacturing” techniques.

Write a 3 page maximum paper, discussing and comparing the approaches of the two companies and the results obtained.

Hint: Journals like International Journal of Production Research, Computers and Industrial Engineering, IIE Transactions, Production Planning and Control, Interfaces, etc. are scholarly journals that fit the category required for this assignment.
