This study involves observing and talking to people who are using prototypes of computer systems to display information, in order to learn about how to better design them in the future.

Any interview data will be maintained and safeguarded by the research staff at the Information School, University of Washington for the life of the project. Upon completion of the project, all recorded interview material will be destroyed.

Your participation in the interview is entirely voluntary. Should you wish to do so, you may at any time withdraw from this study.
