

**1. Intersection of Social Search and Class Topics (~ 1-1.5 pages)**

We read and discussed two articles on social search. List and discuss how topics/technologies we have discussed this quarter make social search possible.

**2. Social Search: The Future of Search? (~ 1-1.5 pages)**

Some have compared the development of social search to the release of Google's Page Rank. Is social search just part of the natural evolution of searching or is it a significantly new development? What are your thoughts?
