Re: Assignment...

Welcome to our 2009 Fall Biomechanics Seminar Series! I'm looking forward to an exciting series of talks from our seminar presenters.

For those of you who have registered for this class, in addition to attendance, there will be one assignment to complete in order to receive credit for the course. This assignment has two parts:

- 1) You'll need to **attend AT LEAST 8 of the 10 seminars** (...be sure to sign the attendance list!).
- 2) Throughout the quarter, you'll need to **ask AT LEAST 4 questions** (...1 question to at least 4 different presenters) during the Q & A sessions following each of the seminars. You may certainly ask more than 4 questions, but please document at least 4 by recording:
 - A) The name/date of the presentation
 - B) The question you asked (with a little context)
 - C) The answer you received.

You can submit these to me via e-mail individually following each seminar or collectively at the end of the quarter.

If you have any questions regarding the seminar series, or the assignment, please don't hesitate to drop me a line (rc@u.washington.edu). Hope you enjoy the series!

Cheers!

Randy Ching
