**Re:** Assignment

*Welcome to our 2013 Spring Biomechanics Seminar Series!* I'm looking forward to an interesting series of talks from our seminar presenters!

For those of you who have registered for this class, there are two requirements to fulfill in order to receive credit for the course.

- 1) You'll need to **ATTEND AT LEAST 8 OF THE 10 scheduled seminars** during the quarter (...please be sure to sign the attendance list!). This seems like a lot, but I'm trying to ensure good turn outs for all of our speakers who volunteer their time to prepare and present their work. **Also, I'm not requiring the standard seminar "write ups" at the end of the quarter!**
- 2) In lieu of seminar "write ups," the second requirement is for each student to **ASK AT LEAST 5 QUESTIONS during the Q & A sessions** following each of the seminars (...1 question to at least 5 different presenters). You may certainly ask more than 5 questions, but please ask at least 5. This is to help our presenters know that you were listening (not sleeping!) and makes for interesting discussions about the seminar topics.

If you have any questions regarding the seminar series, or the assignment, please don't hesitate to drop me a line (rc@u.washington.edu). Hope you enjoy the series!

Cheers!

*Randy Ching*
