Special Comments:

Course Evaluation
MED CHEM 562P

- D. General comments or suggestions for the course. Please elaborate on the following:
1. Do you feel that the topics covered (see question A) were or will be helpful to you in terms of other courses? Suggestions as to improvements would be helpful.
 2. Do you feel that your background was sufficient for the course? If not, how would you suggest we better prepare you?
 3. Any other comments or criticisms that you might have on the instructors, TA's or course itself would be helpful.
