Errors in Chapter 11:

Page 555, Equation 11.7(a): Referring to the denominator of Eq 11.7(a), the first term within the square brackets should be $D_{11}$, not simply $D$. The corrected expression is:

\[
c = \frac{\pi^4}{\rho_0} \left[ \frac{D_{11}}{a^4} + \frac{2}{a^2 b^2} (D_{12} + 2D_{66}) + \frac{D_{22}}{b^4} + \frac{(\Delta T^c - \Delta T)}{\pi^2} \left( \frac{1}{a^2} \left[ A_{11} \overline{\alpha_{xx}} + A_{12} \overline{\alpha_{yy}} \right] + \frac{1}{b^2} \left[ A_{12} \overline{\alpha_{xx}} + A_{22} \overline{\alpha_{yy}} \right] \right) \right]
\]
