

## **Assignment 2** Site/Program Scenarios

The purpose of this assignment is to collectively develop a series of site and program scenarios to help each other consider a variety of physical and programmatic settings for the proposed installations. The specific sites include the International District Bus Station plaza, Hing Hay Park and adjacent spaces, and the parking lot under I-5.

### **1. Working in teams, develop an annotated map showing the following elements:**

- A possible site layout showing locations of tents, storage areas, possible seating and tables, possible signage, existing built elements and any other relevant elements.
- Possible pedestrian and traffic flows.
- Opportunity areas/locations for installations.

### **2. Organize the information (drawings and notes) on a letter-size handout (to be posted on the Web) and a 24"x36" poster.**

***Due October 9<sup>th</sup>, 2006 Submit an electronic file of the handout to [jhou@u.washington.edu](mailto:jhou@u.washington.edu)***
