

Case study:

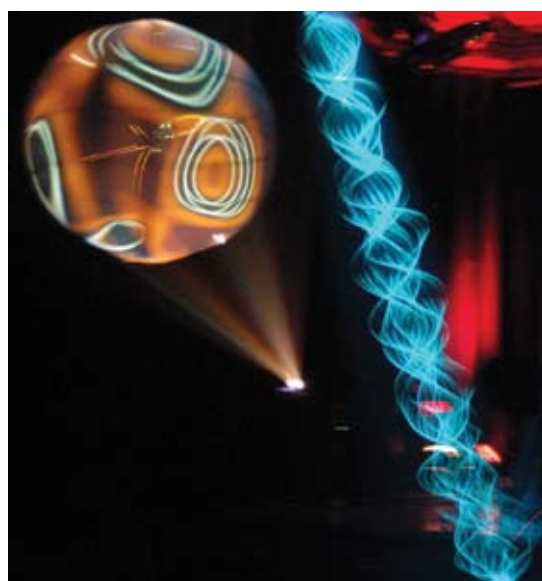

lighting installations

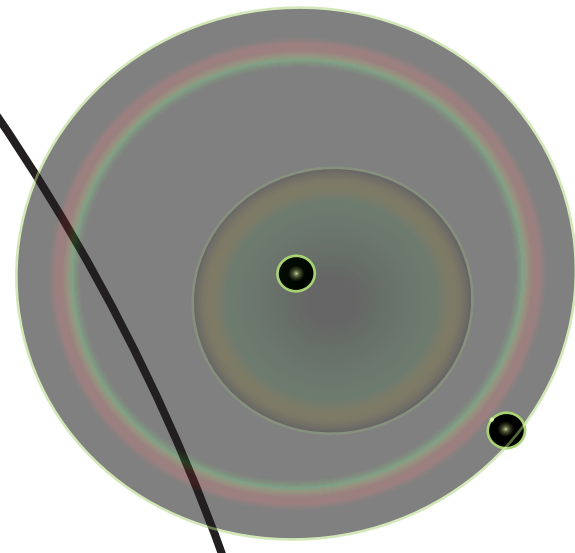

Beams & Buildings

Fixtures

Paul Friedlander Kinetic light sculptor & Scientific Artist

Lighting installations:

Lighting can set mood

dark cavernous spaces evoking bone chilling fear...

cheerful bursts of light and music creating an atmosphere of excitement and joy

buildings awash in glowing red and orange

beams of light peering the inky black sky

glow sticks create chinese lantern explosion of light

mathematics + art generate flowing spinning light beams

festivals

sporting events

holiday celebration

a night market

unlimited possibilities...
