

LIMITED ORTHO CLINICAL TREATMENT CHECKLIST
Completed Case

- Register for Ortho 631 (should be done within a quarter of when you start the treatment)
- Active treatment completed and appliances removed
- Retention delivered

Records of acceptable quality obtained and turned in:

- Initial Models trimmed with **CO wax bite**
 - Initial intra- & extra-oral photos turned in
 - Final Models trimmed with **CO wax bite**
 - Final intra- & extra-oral photos obtained and printed
- All chart notes completed, signed by treating student and by overseeing resident/faculty

Make sure your models and photos are of acceptable quality (use the criteria in your ortho 522 & 631 handouts) and BE SURE TO OBTAIN A CO WAX BITE. Poor quality records may be rejected and you may not receive credit for Ortho 631 until improvement is shown.
