**INTERVIEWEE:**

**INTERVIEWER:**

**DATE OF INTERVIEW:**

**For Interviewer**

Please begin by explaining the course and the goals of this project clearly. Before you begin the interview, please ensure that the interviewee is comfortable having her or his name associated with this project. If your interviewee would prefer to remain anonymous, she or he must still sign this consent form but does not need to include her or his name in the final product. Make sure that you have explained to the interviewee in advance how the interview will be recorded. Make sure you establish in advance what role, if any, the interviewee would like to play in the editing process.

**For interviewee**

Before signing this form, please be sure that the interviewer has explained to your satisfaction what this interview is for and what your role will be.

By signing this form, you are consenting to participate in this project as an interviewee. The final class project for which this interview is a part will be available to other students in this course. It will also be available to members of the University of Washington community and to other academic institutions. While we do not intend to make this project freely available online, there is always a risk that it will become accessible to individuals outside the class.

Even after signing this form, you are free to stop the interview at any time and for any reason. You do not need to state a reason for terminating this interview.

Thank you very much for your participation in this project.
