T-Shirt recognition contest

Over the years, I’ve collected T-shirts with botanical or evolutionary themes.

Throughout the quarter, I will give approximately 24 lectures. For most, if not all, of those lectures, I will wear a T-shirt that bears some relevance to the subject in class that day. In many cases, although probably not all cases, I’ll make reference to the image or subject on the T-shirt.

Your task, should you decide to accept it, is to document the T-shirt contents (in general terms, but be as specific as you think necessary), AND identify its relevance to the subject in class that day.

For example, on the first day of class, I wore a T-shirt with pine cones on it, and we learned about conifers in lab that day.

Keep track of these throughout the quarter and at the end of the quarter, all participating students will turn in their lists. **Up to 10 extra credit points can be earned.**
