

Artist's Statement/Creative Work

OVERVIEW

This component of the final portfolio gives you a chance reflect on ways you have addressed the course goals creatively. You will select from the poems and photos you have generated for this class and present in the context of an artist's statement anything from one photo or poem to any purposeful combination. For the sake of coherence in your final portfolio, you might choose to explore a question, issue, or concept in this assignment that plays off of or builds on your final paper, but this is not a requirement.

EVALUATION

I will evaluate your artist's statement for your ability to articulate your purposes and intentions in relation to the central themes and thinkers of this course. Your creative work will be evaluated only within this context.

FORMAT

- 350-400 words, single-spaced
- html markup and photos attached as *.jpg required if you choose to publish online
